

## HATTERAS 68 CONVERTIBLE

This new 68 Convertible from Hatteras features many design innovations that, according to the builder, contribute to the boat's great performance. Thanks to the most exaggerated bow flare seen on any Hatteras to date and aided by the double chines, spray is deflected away from the boat. Strakes at the hull's on-plane waterline are a key element in the boat's performance capabilities as Hatteras says they add dynamic lift, increase the boat's stability, and improve overall tracking.

Other design innovations add to the

### SPECIFICATIONS

WATER	400 U.S. GALS.
POWER	2 x CAT C-32 @ 1,675 HP
CRUISING SPEED	30 KNOTS
TOP SPEED	35 KNOTS
RANGE	479 NM @ 1,800 RPM
MSRP	N/A

boat's comfort, such as in the 192-square-foot cockpit where an angler's time is enhanced, not only by the array of fishing accessories, but also

by a unique passive exhaust system that reduces fumes in this area. A mezzanine level overlooks the cockpit and is designed in a modular fashion for owner customization.

The interior features cherry wood and is quite spacious, making full use of the 21' 6" beam. In the saloon, a U-shaped lounge provides a good view of the 42" plasma TV while the galley offers under-counter refrigeration. A four-stateroom, four-head layout is below, with a full-beam master amidships. *Hatteras Yachts; (252) 634-4820; hatterasyachts.com*
